Pressure seal machine: PS600

Specification & Pricing

January 2026

010

Key features

The PS600 folder/sealer is the ultimate machine for medium to large-volume processing of one-piece mailers.

It is so easy to use. Simply print your documents on pressure seal paper, put them into the PS600 and switch it on. Moments later, your documents will be folded and sealed, ready for posting.

Maintenance

The standard warranty for this machine is 12 months from delivery, including parts and labour.

Maintenance covers:

- Installation and training
- 1 Year of on-site service
- Full parts and labour cover
- Next working day (eight working hours) on-site response for breakdown call-outs
- Guarantee that print processing is complete if a problem cannot be resolved on-site
- One preventative maintenance visit per year (clean and/or replace parts)
- Telephone helpdesk
- Replacement machine supplied on-site if your machine is not repaired on breakdown call-out.

Why Datagraphic?

Many of the UK's leading organisations rely on us for pressure seal solutions. Here are a few good reasons why we should be your first choice:

- Datagraphic can provide next-day response times on call-outs, with a wide network of trained engineers covering the UK mainland.
- Datagraphic provides extensive choice with access to many different pressure seal machines from all leading UK specialists.
- Datagraphic's experienced team has extensive product knowledge and offers support every step of the way to recommend a pressure seal solution that's right for your organisation.
- Datagraphic provides a total solution, from payslips, printers and sealers to maintenance and support.
